### Artifact Acquisitions:

Linen sampler worked by Amanda C. Heitler of Ephrata, a daughter of Richard R. and Hannah (Martin) Heitler. The sampler, which is framed, is approximately 17 1/4" square and is worked in cross stitch, possibly in linen thread; various colors used include shades of green, light and dark blue, ochre, pink, and rose. The letters of the alphabet are stitched across the top in simple capitals followed by lowercase letters, all arranged in two rows. These are followed by the same letters rendered larger, in a more flowing script-like style, followed by the name "Amanda C. Heitler" and the date "1838," all arranged in three rows. The central and lower portions of the sampler, occupying approximately two-thirds of the whole, are embroidered with various design elements, one of the most prominent being the name "Ephrata" at the center of the piece. The town's name is surrounded by vines forming an oval, which is accented at the sides and top with floral forms and at the bottom with a ribbon bow. Below this are a pair of facing birds, and below the birds is a flower-filled urn. The name of the town is flanked by a rose and a stylized potted carnation; the paired birds are flanked by five small forms, two on one side and three on the other, mainly floral but including a decanter and goblet. The central urn is flanked by a tulip and a carnation, both rendered in a manner more natural than stylized; there are also a small pair of facing birds and a small black dog. A crenellated border line accented with strawberries encloses the whole.

Amanda Heitler was born in 1830 and so created her sampler around the age of eight, when her family occupied a home at what is now the northeast corner West Main Street and Washington Avenue. Her father, a justice of the peace, surveyor and printer, died in 1847. Amanda did not marry and spent her adult life in the large brick home known as "Northside," today numbered 144-146 East Main Street; she shared the house, built in the early 1850's, with her mother. Amanda died in 1890; her mother, Hannah, died in 1891. (Purchase)
